

INDICATION GÉOGRAPHIQUE PROTÉGÉE

PAYS D'OC

CABERNET SAUVIGNON

To the great majority of conscious wine-drinking palates, Cabernet Sauvignon is the definitive red grape variety. It is the principle cépage of Bordeaux and is an accomplished international traveller. The vine is delightfully easy to grow and to harvest. It caught on in the Midi in the 1980s, where there are now several thousand hectares planted, and has significantly helped to improve the image of the Pays d'Oc.
