

COTEAUX DU PONT DU GARD

INDICATION GÉOGRAPHIQUE PROTÉGÉE

UNFILTERED GRENACHE SYRAH 2015

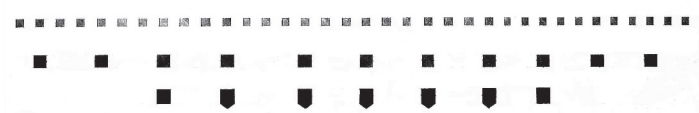

Working essentially with the appellations of Côtes du Rhône and Côtes du Rhône Villages Signargues, the Cave d'Estézargues also has access to different sites classified as IGP. This cuvée perfectly illustrates the potential of certain viticultural sites. Only concerned with quality wine production, the stony, clay-based soils with a south-facing exposure predominate. Both the vigour and yield are restricted for the traditional grapes of Grenache and Syrah. Minimum intervention in the cellar also helps to express the identity of these ripe grapes. The youthful style leads to a note of spice and liquorish with soft tannins and an immediate accessibility and harmony.
