

Domaine CHEVALLIER BERNARD

Antoine, Chantal et Jean Pierre BERNARD

TECHNICAL SPECIFICATION SHEET

APPELLATION: Savoie Jongieux Blanc

REGION: South-east France

VINTAGE: 2020

GRAPE VARIETY: Jacquère

GRAPE-GROWING CHARACTERISTICS:

Soil type: glacial moraine clay-limestone soil
Exposure: south-west
Altitude: 400 to 500 m
Average age of grapevines: 37 years
Density of planting: 6000 vine plants/hectare, spacing
2.10 m between rows
Training method: vines trained on wires, guyot pruning
(single)
Ground care: permanent grassing between rows, chemical
weed control under the rows
Work on the growing vines is carried out to ensure a very
high-quality grape harvest: removing unwanted new
shoots, disbudding double eyes, thinning out the leaves.

**Our domain has been certified "High Environmental Value"
since November 2016. (We obtained "Sustainable
Agriculture" certification in December 2006).**

WINE PRODUCTION CHARACTERISTICS:

Grapes harvested manually
Pneumatic pressing
Thermovinification
No malolactic fermentation

Waste products are stored in a special tank and then spread on permanent grassland.
