

# Domaine CHEVALLIER BERNARD

Antoine, Chantal et Jean Pierre BERNARD

---

## TECHNICAL SPECIFICATION SHEET

**APPELLATION:** Roussette de Savoie Cru

### MARESTEL

**REGION:** South-east France

**VINTAGE:** 2019

**GRAPE VARIETY:** Altesse

**AWARD:**

Gold medal in 2020 at the CIVS challenge

**GRAPE-GROWING CHARACTERISTICS:**

Soil type: glacial moraine clay-limestone soil

Exposure: south-west

Altitude: 450 m

Average age of grapevines: 21 years

Density of planting: 8000 vine plants/hectare

Training method: vines trained on wires, goblet pruning and guyot pruning (single)

Permanent grassing of outlines parcels and slopes

Work on the growing vines is carried out to ensure a very high-quality grape harvest: removing unwanted new shoots, disbudding double eyes, thinning out the leaves.

**Our domain has been certified "High Environmental Value" since November 2016. (We obtained "Sustainable Agriculture" certification in December 2006).**

**WINE PRODUCTION CHARACTERISTICS:**

Grapes harvested manually

Conveyor sorting before pressing

Pneumatic pressing

Thermovinification

No malolactic fermentation

Waste products are stored in a special tank and then spread on permanent grassland.
